Address
15/07,TC Sonnaikarupan Street,
Virudhunagar,Tamil Nadu -626001

ACADEMIC QUALIFICATION

Currently pursuing 4th year of 5 year Integrated M.Sc. Cyber Security at the Department of Applied Mathematics and Computational Sciences at PSG College of Technology.

SKILL SET

Languages	Python, Java, C++, C
Platform	Windows, Linux, Kali Linux
Tools	Wireshark, Git, Burp Suite,Excel, Figma

AREAS OF INTEREST

- Computer Networks
- Operating Systems
- Backend Development
- OOPS
- Network Security
- Machine Learning

ACADEMIC RECORD

- **M.Sc Cybersecurity** 2022-2027
PSG College of Technology, Coimbatore **7.51 CGPA**
- **XII (Higher secondary, ISC)** 2022
RJ Mantra English School,Virudhunagar **88.40 %**
- **X (SSLC, ICSE)** 2020
RJ Mantra English School,Virudhunagar **85.16 %**

INDUSTRY BASED WORK EXPERIENCE

- **JPMorganChase** [July 2025 - Dec 2025]
Supported M&A, capital raising, credit, and markets advisory through financial research and analytics. Applied **Python and web scraping** to automate data collection, analyze market and company data, and generate insights for transaction and client analysis.

NON-ACADEMIC PROJECTS

- **Food Item Classification Project:** Developed a code for classifying food items using a **Random Forest Classifier**, showcasing expertise in Python and machine learning. The project combines robust model performance with intuitive usability, ensuring accessibility for non-technical users.
- **CipherSnap:** Developed a basic JavaScript based web application to encrypt and decrypt images using the AES algorithm via **Crypto-js API**.

ACADEMIC PROJECTS

- **Quick Cart:** Created a web app using **Streamlit** to classify grocery items from images and generate bills. Utilized deep learning (**EfficientNet**) and object detection for precise food item identification. Integrated with a price database for automated billing, ensuring seamless functionality and user experience.
- **Firewalls:** Designed and implemented a Linux-based firewall utilizing **Iptables** and **NetfilterQueue** to effectively manage and monitor network traffic. Developed a **Flask**-powered web interface to facilitate intuitive rule management, providing real-time traffic logging and dynamic packet filtering capabilities.
- **Automatic CTI Report Generator:** Built a Python-based tool to automate Cyber Threat Intelligence (CTI) reporting with IOC extraction and visualization. Developed a Tkinter GUI for easy input, analysis, and multi-format exports (PDF, DOCX, TXT, STIX). Improved efficiency by standardizing reports and reducing manual effort in security operations.
- **CyberMind:** A Retrieval-Augmented Generation (RAG) based Threat Intelligence Assistant designed for cybersecurity analysts, enabling natural language queries on threat reports with real-time responses. The system leverages dense vector embeddings for semantic retrieval and integrates Large Language Models (LLMs) for generating accurate outputs.

EXTRA-CURRICULAR ACTIVITIES AND ACHIEVEMENTS

- Google Cybersecurity Professional Certificate
- Selected as one of the top three teams from our college in **Flipkart Grid 6.0** advancing to level 1.2.

DECLARATION

I, Naveen R, do hereby confirm that the information given above is true to the best of my knowledge.
